

ROADWORKS NOTIFICATION

To Owner/Occupier

Dear Sir/Madam,

DATE OF ROAD SURFACING NIGHT WORKS

Vasse Highway SLK 57.73 to 59.08 From Flat Street to Adam Street See reverse for map of works	
From	To
Monday 10/02/2025	Thursday 13/02/2025

STREET PARKING RESTRICTIONS DRIVEWAY RESTRICTIONS BETWEEN 7:00PM and 5:00AM

Fulton Hogan Industries Pty Ltd will be carrying out road surfacing treatment on behalf of the Main Roads WA in the above location on the specified dates, (weather permitting).

We request that all vehicles are not parked on the specified street or nature strip on the day of the road surfacing treatment from 6pm until works are complete.

Access to your driveway/street maybe restricted whilst works are underway, however once complete vehicles can access their driveway/street. In order to help facilitate the movement of traffic we will be closing off one lane at a time over a 1km stretch whilst the other lane is under escort at reduced speed.

Work not completed, due to unforeseen circumstances such as poor weather conditions, will be **rescheduled and further notice will be provided** prior to the works.

The Health and Safety of our workers & the general public is a prime concern. Please be alert to the involvement of personnel, heavy machinery, and other road users. Please ensure all members of your household, particularly children and pets are well clear of all work.

More information and a map of the extent of the works can be found on the reverse side of this notice.

We apologise for any inconvenience and thank you for your co-operation.

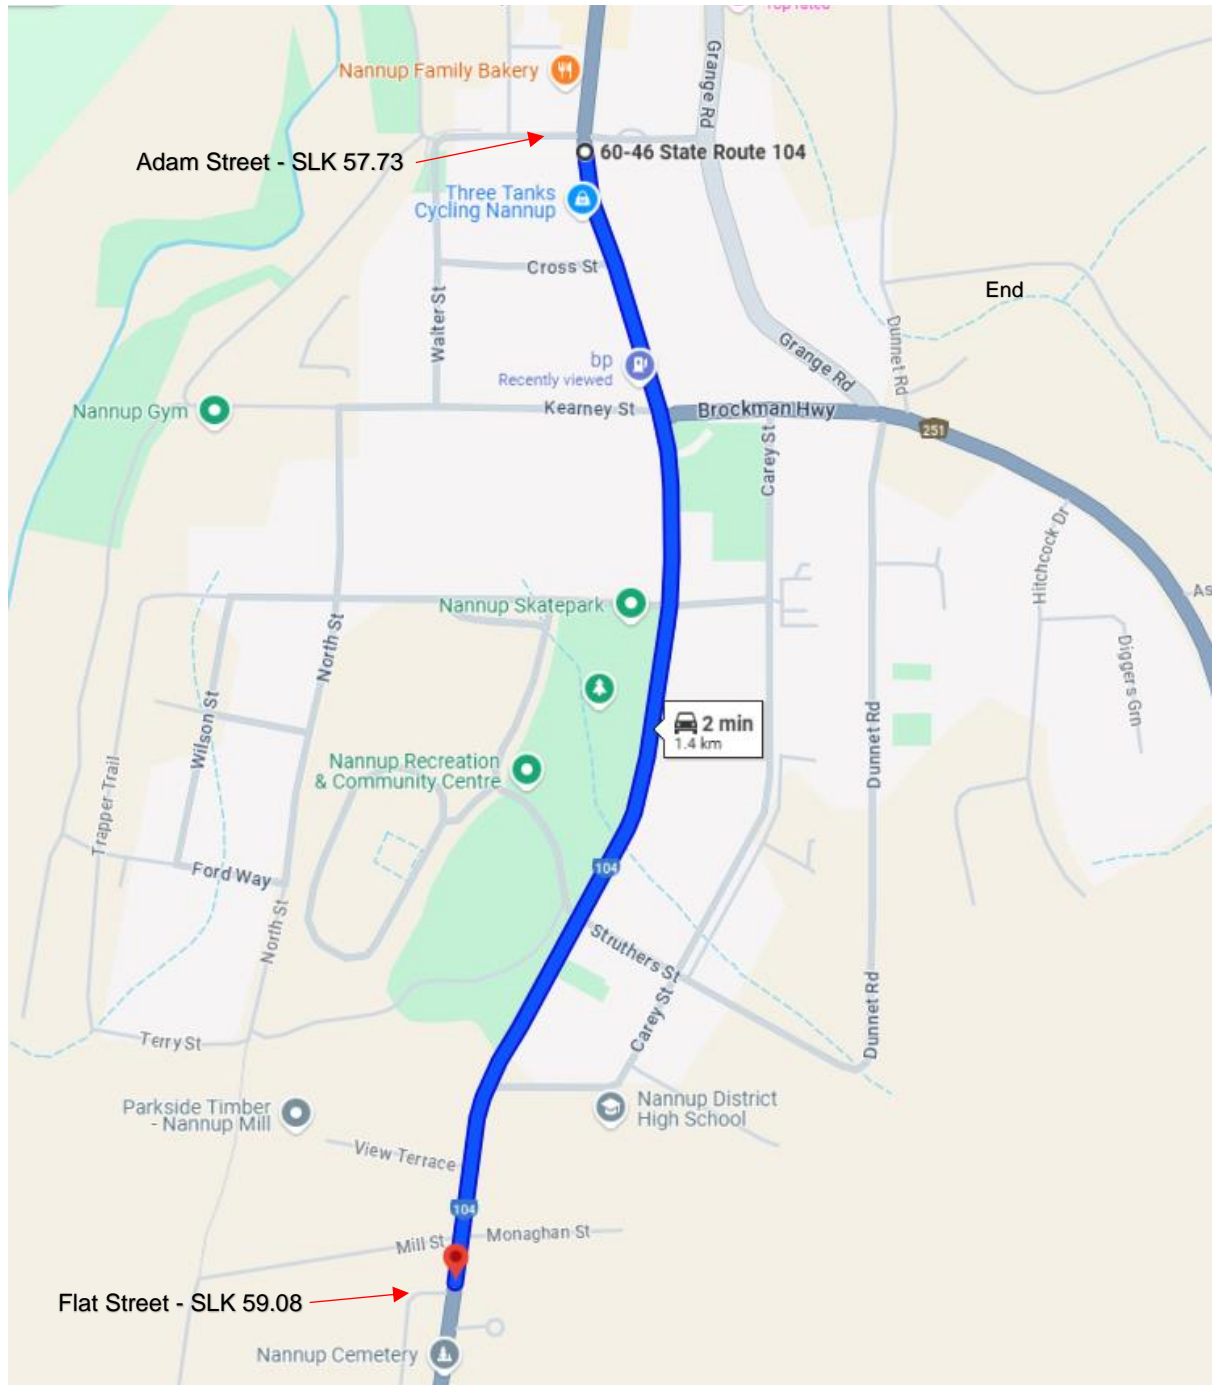

What if I need to leave my house?

Depending on the location of the works and where you reside access maybe limited at times (between 7pm to 5:00am) however alternative options maybe arrange. In the case of an emergency, notify one of the workers on site, otherwise we recommend finding alternative parking arrangements on the day of resurfacing.

Operating Noise

- Residential Noise exposure will be limited as the paver travels continuously at 5km/hr during operations.
- We anticipate works on the lane closest to residential side be complete within 3-4 hours, thereby reducing the noise further.
- Whilst not in operation equipment will be idled down or turned off completely.
